

Khani Reed

Ewing, NJ, 08638 | (609)789-7019 | khanireed2@gmail.com | https://github.com/KhaniReed/team_36

PROFESSIONAL SUMMARY

Detail-oriented Cybersecurity professional with internship experience in threat detection, incident response, and vulnerability management. Skilled in utilizing SIEM platforms (FortiSIEM), EDR solutions (CrowdStrike, Rapid7), and vulnerability scanners (Nessus) to monitor and protect enterprise systems. Experience in applying MITRE ATT&CK framework, NIST Cybersecurity Framework, and SOC best practices to investigate security events, perform log analysis, and strengthen organizational defenses. Recognized for analytical problem-solving, proactive risk mitigation, and cross-team collaboration to enhance overall security posture.

EDUCATION

Fairleigh Dickinson University, Madison, NJ

Aug 2020 - May 2025

BS/MS, Computer Science: Cybersecurity (GPA: 3.68/4.0)

- **Achievements:** Dean's List from Fall 2020 – Spring 2025, Bachelor's Degree, May 2024, graduated with the highest GPA in our Computer Science Department for class of 2024, Master's Degree, May 2025
- **Coursework:** Advance Linux System Admin (RHCSA based), Artificial Intelligence, Certified Ethical Hacking I-II (CEH Cert based), Intro to Cybersecurity (Sec+ based), Intro to Cryptography, Data Comm & Computer Networks (Network+ based), Data Structures and algorithms, Discrete Structures, Info Security Design & Mgmt (CISSP based), Network Security, Operating System, Security Regulations (CISSP based), Software Design

CERTIFICATIONS

- CompTIA Security+

PROFESSIONAL EXPERIENCE

CGI | Cybersecurity Intern

Jun 2024 - Aug 2024

- Investigated information security breaches to identify vulnerabilities and assess potential impacts, following SOC workflows and incident response playbooks.
- Monitored networks and systems using SIEM tools (CrowdStrike Falcon, FortiSIEM) to detect intrusions, perform log analysis, and escalate incidents as needed.
- Conducted vulnerability assessments with Nessus, identifying exploitable weaknesses and validating remediation efforts.
- Applied the MITRE ATT&CK framework to analyze adversary tactics and techniques during incident investigations.
- Created interactive dashboards to visualize indicators of compromise (IOCs), blocked network traffic, and system vulnerabilities for real-time monitoring.
- Performed threat intelligence research to support ongoing investigations and enhance detection rules.

CGI | Software Engineer Intern

Jun 2023 - Aug 2023

- Designed, developed, and maintained computer software with a focus on secure coding practices to minimize potential vulnerabilities.
- Managed the full lifecycle of software development while incorporating security frameworks and best practices.
- Produced well-designed, testable, and efficient code, ensuring adherence to security standards and compliance requirements.

SBR Realty | Assistant to Real-estate Sales Agent

Jul 2020 - Aug 2020

- Prepare documents such as representation contracts, purchase agreements, and leases.
- Generate lists of properties that are compatible with buyers' needs and financial resources.
- Configure desktop computer systems and establish wireless network communication infrastructure.

PROJECTS

Phishing Detection Web Application

Feb 2025

- Created as part of a hackathon—this was my first hackathon experience, completed in collaboration with a fellow student.
- Built a web application that helps users detect phishing attempts by analyzing copied email content and URLs.
- Earned special mention for Social Impact, recognizing the project's real-world value in improving cybersecurity awareness and user protection against phishing attacks.

RELEVANT SKILLS

- **Security Tools & Platforms:** FortiSIEM, CrowdStrike (EDR), Nessus Vulnerability Scanner, Splunk (SIEM), Wireshark, Cisco Packet Tracer, GNS3, Oracle VM VirtualBox, GitHub, Jira, Microsoft Excel/PowerPoint/Word
- **Frameworks & Methodologies:** Incident Response, Threat Intelligence, Threat Hunting, SOC Operations, Security Monitoring & Alert Triage, Vulnerability Management, Risk Assessment, MITRE ATT&CK Framework, NIST Cybersecurity Framework, ISO 27001
- **Technical Skills:** Linux Terminal, Windows Command Prompt, Network Protocols (TCP/IP, DNS, HTTP/S, SMTP), Web Application Vulnerabilities, Security Configurations, IDS/IPS Concepts, Firewall Policies
- **Programming Languages:** C++, C#, Python, Bash, PowerShell
- **Professional Skills:** Critical Thinking, Root Cause Analysis, Documentation & Reporting, Collaboration & Teamwork, Problem Solving, Time Management, Attention to Detail

ACTIVITIES/AWARDS

- **Colonel F. Dickinson Scholarship Recipient:** August 2020 - May 2025
- **Departmental Academic Honors Recipient:** March 2024
